5010-S
Drama Marble

A timeless glamorous look of misty veined marble at first glance always add the beauty into places.

Image for Inspiration only

An undeniable feel of Terrazzo isn't just limiting this on floors but starting to take more in wall, tabletops and some furnitures in a more luxurious feel.

Rustic interior with industrial influence describes a rough, aged and casual feel which is drastically different from other designs. Raw materials are common, so rather than finding a sleek or glossy finish, you will find more reclaimed and unfinished materials from this style.

Modern maximalism interior design concept describes colorful things in home such as vintage chair, flower stand with the bright green wall that could all match perfectly.

Image for Inspiration only

Blue now becomes a new popular color like grey in the past. This will be a color of the year called classic Blue which is very classy color to match with any designs.

Wilsonart® AEON Collection

Extra Wear For Long Lasting Surface

Wilsonart® Laminate with AEON™ technology creates a surface that is dramatically more durable than before. Laminate with AEON™ technology outperform traditional laminate on wear resistance as well as scratch, scuff, mark resistance. Enhanced performance laminates are 3 to 5 times more resistant to traditional laminate, while wear resistance reaches 1,200 cycles, outperforming the standard by 3 times.

Wilsonart® Solicor
Stunning Designs With No Visible Seam at The Edges

Wilsonart® Solicor is designed to enhance your most prestigious and refined projects in furniture. The Solicor allows you to create clean lines without visible edges.

1511-G
Mandarin Red

Wilsonart Solicor Range

Wilsonart® Fire Rated Laminate
Class A Fire Rate Performance Laminate

Wilsonart® Fire-Rated Laminate is superb for interior application where a decorative surface requires durability, easy care and style with resistance to Flame Spread and Smoke Development in case of fire.

Suitable for surfacing furniture in public places: airports, hotels, office building and institutions such as hospitals and schools.

Wilsonart® Fire-Rated Laminated is certified by American Society for Testing Materials ASTM E-84

Wilsonart® Compact Board High Impact Resistance For Any Solutions

Wilsonart® Compact Board with high impact strength against water, steam, and moisture. All the variety of Wilsonart® range from solid colors, woodgrain, stone and custom designs can be chosen to make one-sided or two-sided compact board.

Suitable for both interior and exterior works (exterior grade) such as interior wall feature, exterior wall claddings, toilet cubicle, elevator walls, partitions, kitchen countertops, doors and signages.

Wilsonart® Chemsurf A Solution Provider For Laboratory

Wilsonart® Chemical Resistant laminate answers the challenge for highly corrosive environments provide exceptional chemical and water resistance in an extensive array of decorative patterns. Wilsonart® Chemsurf is resistant to 149 stains and chemical agents. Suitable for Medical and educational laboratory cabinets, case work, counters, table tops in hospitals, darkrooms, beauty salon and product testing laboratory.

Wilsonart Chemsurf Range

Wilsonart® Top Bonded
Variation of Prefabricated Elements

Wilsonart® HPL applied on wooden materials such as MDF, plywood, particle board with edged or seamlessly postformed.

Top Bonded Components.

*For Special order of R6, Please contact your Wilsonart representatives.

GREEN MESSAGE

Committed to Sustainable Design

There are 3 key goals driving Wilsonart Sustainability initiatives

Zero waste | Zero impact | Zero barriers

Zero waste has focused Wilsonart® on eliminating unnecessary materials, processes and waste from the product we make and sell.

Zero impact policies has brought about greater focus on recycling to help our environment. Improving the quality of indoor air is vital for human health and Wilsonart® Laminate exceeds the industry's highest standards for Indoor Air Quality with SCS indoor advantage and Greenguard. The Greenguard certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emission of volatile organic compounds (VOCs) into indoor air. This standard includes health based criteria for additional chemicals and also requires lower total VOC emission levels to ensure that product are acceptable for use in more sensitive environments such as schools and healthcare facilities.

Zero Barriers focuses on the things Wilsonart® people can do in the local environment. This includes community programmes and practical measures such as providing end-of-line colour sample chips to children and art students for their projects, reducing costs for schools white adding to our recycling commitment.

Sustainability is a full-circle program at Wilsonart®
